

INDUSTRIAL GREASES

VEEDOL LITHIUM SOAP GREASES

- VEEDOL ALIGRA 30

DESCRIPTION

- Multipurpose lithium based grease containing high quality graphite as a friction modifier.
- NLGI 3 consistency.
- Conforms to IS 7623 :1993 (Reaffirmed 2006) specification.

APPLICATIONS

- Recommended for applications requiring graphite as a filler.

BENEFITS

- High water and oxidation resistance properties.
- Possesses excellent anti-corrosion and anti-rust characteristics.
- Can withstand high operating temperatures.
- Has excellent structural stability.

CHARACTERISTICS

VEEDOL ALIGRA		30
Texture		Smooth
NLGI No.		3
Soap Type		Lithium
Worked Penetration 60st @ 25°C	Min	220
	Max	250
Drop Point°C	Min	185
Free Alkalinity (as LiOH) %by mass	Max	0.1
Copper Strip Corrosion		-ve
