

INDUSTRIAL GREASES

VEEDOL CALCIUM SOAP GREASES

- VEEDOL ANEPRO 11 • VEEDOL ANEPRO 22

DESCRIPTION

- Calcium based extreme pressure type grease.
- NLGI Consistency – 1, 2 (respectively).

APPLICATIONS

- Recommended for roll neck bearings in rolling mills where they have to resist washing action of water and also where lubricant has to function under severe shock load condition.
- Also suitable for mill roll bearings in sugar mills.

BENEFITS

- Exceptionally high load carrying capacity, water resistance and are non-corrosive to iron, steel, copper and their alloys.

CHARACTERISTICS

VEEDOL ANEPRO GREASE		11	22
Texture		Smooth & Buttery	
NLGI No.		1	2
Worked Penetration 60st @ 25°C	Min	310	265
	Max	340	295
Drop Point°C	Min	100	100
