

INDUSTRIAL GREASES

VEEDOL LITHIUM SOAP GREASES

- VEEDOL CRUSHER GREASE

DESCRIPTION

- Lithium based grease with high water and oxidation resistance properties.
- NLGI Consistency – 3.

APPLICATIONS

- Crusher grease is mainly used in pulverizing machines.

BENEFITS

- High water and oxidation resistance properties.
- Possesses excellent anti-corrosion and anti-rust characteristics.
- Can withstand high operating temperatures.
- Has excellent structural stability.

CHARACTERISTICS

VEEDOL CRUSHER GREASE		
Texture		Smooth
NLGI No.		3
Soap Type		Lithium
Worked Penetration 60st @ 25°C	Min	220
	Max	240
Drop Point°C	Min	190
Free Alkalinity (as LiOH) % by mass	Max	0.1
Copper Strip Corrosion		-ve
