

INDUSTRIAL GREASES

VEEDOL LITHIUM COMPLEX GREASES

- VEEDOL GIRTH GREASE

DESCRIPTION

- Lithium complex grease with high quality graphite as a friction modifier.

APPLICATIONS

- Designed for severe lubrication condition encountered in slow speed large open gear drives and recommended for lubrication of open gear drives of rotary kilns, cement mills, sintering plants, ball mills, etc.

BENEFITS

- Good oxidation stability and resistance to water wash out at a relatively higher temperature.
- Good load carrying capacity with anti weld and anti seizure properties.
- Possesses outstanding rust and corrosion resistant properties.

CHARACTERISTICS

VEEDOL GIRTH GREASE		
Texture		Smooth
NLGI No.		0
Worked Penetration 60st @ 25°C	Min	355
	Max	385
Drop Point°C	Min	220
