

INDUSTRIAL SPECIALITY PRODUCTS

HEAT TRANSFER FLUIDS

- VEEDOL THERMIC FLUID • VEEDOL THERM LL

DESCRIPTION

- Specially developed mineral oils for use in industrial heat transfer applications.

APPLICATIONS

- For heat transfer fluid applications in textiles, pharmaceutical, chemical & processing industries.

BENEFITS

- Possess excellent thermal and oxidation stability, low volatility and low vapour pressure to give long and trouble free service life in heat transfer systems.

CHARACTERISTICS

VEEDOL HEAT TRANSFER FLUIDS		THERMIC FLUID	THERM LL
Kin. Vis. cSt at 40°C	Min	27	32
	Max	34	38
Viscosity Index	Min	95	95
Flash Point (COC) °C	Max	200	210
Pour Point °C	Max	-6	-6
Copper Strip Corrosion	Max	1	1
