

AUTOMOTIVE GREASES

VEEDOL SILK SHIELD GREASE

DESCRIPTION

- Premium lithium based grease of NLGI 3 consistency.
- Meets IS 12203 : 99 (Reaffirmed 2009) specifications.

APPLICATIONS

- Recommended for the anti-friction bearings of all heavy duty commercial vehicles.
- Specially developed for high performance wheel bearing applications.

BENEFITS

- Provides an excellent anti-wear shield to the bearings.
- Helps to achieve a longer grease service interval.

CHARACTERISTICS

VEEDOL SILK SHIELD GREASE		
Appearance	Golden Yellow	
Texture	Medium Fibrous	
NLGI Consistency	3	
Soap Type	Lithium	
Worked Penetration 60st @ 25°C	Min	220
	Max	250
Drop Point°C	Min	190
Free Alkalinity (as LiOH) % by mass	Max	0.1
Copper Strip Corrosion	-ve	
Bearing Performance Test	Passes
