

INDUSTRIAL SPECIALITY PRODUCTS

METAL WORKING FLUIDS

- VEEDOL SOLUCUT SUPER

DESCRIPTION

- Superior grade of water soluble cutting oil made from refined mineral oils.
- Forms a milky emulsion when mixed with water.

APPLICATIONS

- Suitable for general machining, thread cutting, reaming, grinding, sawing, reeling and turning.

BENEFITS

- Superior cooling and lubricating properties.
- Gives a very good surface finish.
- Has rust inhibitors to impart anti-rust, anti-corrosive properties and a biocide to prevent bacterial and fungal growth in the emulsion.

CHARACTERISTICS

VEEDOL SOLUCUT SUPER	
Typical data of the concentrate	Results
Appearance	Amber Fluid
Specific gravity	0.875
Mineral oil concentration	80%
Typical data of the emulsion	Results
Appearance	Milky
pH at 5%	9.5
Corrosion test, IP 287	Passes Test
Foaming (5% in 200ppm water)	Nil after 1 Minute
Refractometer factor	1.18
