

AUTOMOTIVE GREASES

VEEDOL WB SPL GREASE

DESCRIPTION

- Soda based, high melting point grease meeting IS 10647 : 83 (Reaffirmed 2009) specification.

APPLICATIONS

- Recommended for wheel bearings of cars, trucks, buses etc.
- Not recommended for applications where water contamination is likely.

BENEFITS

- Maintains its structure over longer service period.
- Fibrous structure helps in better retention of the grease under heavy shear operation.

CHARACTERISTICS

VEEDOL WB SPL GREASE		
Texture	Fibrous	
Soap Type	Sodium	
Worked Penetration 60st @ 25°C	Min	250
	Max	280
Drop Point°C	Min	180
Free Alkalinity (as NaOH) % by mass	Max	0.3
Copper Strip Corrosion	-ve
